- Within application or real-time emails deliver quick notifications to alert you of actionable transactions

### [News & Analysis](#)

[All](#), [Buying](#), [Selling](#), [Restricted Stock Sales](#), [10b5-1 Activity](#)

## Read Daily News & Analysis

- New editorial content is posted daily, showcasing interesting transactions and emphasizing important insider trading trends
- News reports can deliver articles in real-time that meet your criteria, straight to your inbox

## Performance at a Glance

- Our Insider Rating is a proprietary metric that provides a measure of an insider's historical transaction performance for both their purchasing and selling acumen
- The metric takes into account the magnitude, consistency, and value of an insider's past returns
- For disposal transactions, the return is calculated as the inverse of the post-transaction stock price
